Mica is a natural mineral flake that provides a metallic luster to the floor coating. This unique quality is derived from a group of sheet silicate minerals such as granite and other stone. Our Mica Media systems insulate the surface applied to, while creating an extremely durable layer of protection.

BENEFITS

- Protects any surface
- Ultra low VOCs
- Reflective properties
- Eco friendly system
- Easy to clean

DURABILITY

- Extreme solvent resistance
- Extreme abrasion resistance
- UV stable
- Molecularly bonding
- Impermeable
